LGL_OPO_WH	Owner	Medium	Min 1 Max 6	\$8,482.87	On

Warehouse access controls

## How Slingshot helped us\*:

### Significant Cost Savings

**27% savings** over projected costs by dynamically provisioning compute resources

### Streamlined Operations

Prevented **50,000+ hours** of manual entry using managed workflows to enable teams to operate independently

### Increased Efficiency

**43% decrease** in cost per query through reducing inefficient query patterns and data model improvements

## How Slingshot supports you:

### Manage Costs

Control cloud cost through proactive alerts, intelligent recommendations and dashboards.

### Accelerate Adoption

Scale your cloud data and see business impact faster.

### Automate Governance

Establish governance processes using self-service capabilities, dynamic provisioning and custom workflows.
